Best Practices of the Department of Sociology

Every year we celebrate World Joint Family Day in the college. On that day students will be taught about the importance of the Joint Family System. Because Joint Family is having several advantages as it is having features like One Roof, Joint Kitchen and Joint Property. These are the features which are the strong bonds for the members of the family to lead their life with co-operation and co-ordination. Children of these families will learn to co-operate with the members of the family and they develop a great value of life called sacrifice. They learn to lead their life along with all members of the Joint Family even though they are having differences among themselves.

Along with this we the staff and students of the department of Sociology also visit Central Jail of Gulbarga as part of our academic activity. Because students of B.A. Final Year are making the study of Crime and Juvenile Delinquency in the compulsory paper. And in the study of Crime, students study the structure and functions of the Jails which are considered as the methods of Reformation for the criminals who are in the jails.
